PERSONAL PROFILE

I am a Bachelor of Information Systems graduate from Singaperbangsa University Karawang with a GPA of 3.64/4.00. I have a deep interest as a Fullstack Developer, focusing on website development. I have experience as a website developer and administrator where I was tasked with developing the becdex.com website. I also have experience in creating 2 projects, namely creating a company profile website for CV Radja Studio Indragiri, and creating a website-based online ordering system using the waterfall method. I am a motivated individual with good communication, teamwork, and problem-solving skills. I am also adaptable to various environments and tasks, always ready to learn and face new challenges.
